(IRS Employer
Identification No.)

5600 Clearfork Main Street, Suite 400
Fort Worth, Texas 76109
(Address of principal executive office) (Zip Code)

(817) 618-4020
(Registrants' telephone number, including area code)

Check the appropriate box below if the Form 8-K filing is intended to simultaneously satisfy the filing obligation of the registrant under any of the following provisions:

- Written communications pursuant to Rule 425 under the Securities Act (17 CFR 230.425)
- Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12)
- Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))
- Pre-commencement communications pursuant to Rule 13e-4(c) under the Exchange Act (17 CFR 240.13e-4(c))
- Indicate by checkmark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter)

Emerging Growth Company

If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.

Item 7.01 Regulation FD.

On March 27, 2019, the Barron (Wisconsin) News-Shield published an article that included an interview with Rick Shearer, Chief Executive Officer of the general partner of Emerge Energy Services LP. A copy of the article is attached hereto as Exhibit 99.1 and is incorporated herein by reference.

The information in Item 7.01 of this Current Report on Form 8-K, including the attached Exhibit 99.1, is being “furnished” pursuant to Item 7.01 and shall not be deemed to be “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), or otherwise subject to the liabilities of that section, and is not incorporated by reference into any filing, whether made before or after the date hereof, regardless of any general incorporation language in such filing. This Current Report on Form 8-K will not be deemed an admission as to the materiality of any information in the report that is required to be disclosed solely by Regulation FD.

Item 9.01 Financial Statements and Exhibits.

(d) Exhibits

Exhibit Number	Description
99.1	Release dated March 27, 2019.

Superior Silica cuts mine production; Renegotiate financing

Bob Zientara

Mar 27, 2019

Superior Silica Sands, the largest producer of frac sand in Barron County, is in the process of restructuring its financing and plans to reduce its sand production at its Wisconsin facilities this coming season, according to Rick Shearer, chief executive officer.

The news comes after Superior Silica's parent company, Emerge Energy Services, delayed its fourth-quarter stock report for 2018.

"We have gotten into a cash covenant issue on liquidity, with the loan we took out to do some expansion," Shearer said Tuesday, March 26, 2019.

With the market for "northern light" frac sand in its current state, together with "delays in construction of our San Antonio (Texas) plant, we knew we would not be able to hold that covenant with the bank," Shearer said.

Superior Silica is working with its lenders to refinance its debt, "and we are well into the process of doing that," he added.

The cash issue will create a different situation for Superior Silica's Wisconsin operations, Shearer added.

"Our spring start-up won't be normal compared to preceding years," he said. "We have hired some lead personnel for mining operations in Wisconsin in the month of April, but

the actual (mine) start-ups will be delayed until June 1, (and there will be) two mines in operation instead of five mines.”

Superior Silica’s previous production schedule called for the company to have between 2.2 million and 2.5 million tons of frac sand on hand before mining operations cease for the winter.

“Our projection now is we’ll have 1.5 million tons on the ground going into this coming winter,” Shearer said.

There are encouraging signs in the economy, notably the trend toward a \$60-per-barrel price for crude oil, and a recent jump in both orders and sale price for Wisconsin frac sand, he added.

“In the last 45 days, we’ve seen an uptick,” Shearer said. “December was our low water mark, and since then, the pattern of orders has gone up 70 percent.”
